

1. Conditions of Participation

- 1.1 To be member of a Club affiliated to Swiss Sailing
- 1.2 To be member of Swiss Optimist
- 1.3 At least 8 years old in the year when the PM starts
- 1.4 Not more than 15 years old in the year when the PM ends

There is no registration necessary to the PM. All sailors completing enough races will be ranked automatically.

2 Regatta Calendar

- 2.1 The PM begins in the second semester of a year and ends in the first semester of the following year.
- 2.2 The regattas and venues that count for the PM are determined and published by Swiss Optimist Committee.
- 2.3 The PM regattas will be held evenly distributed across the Swiss Sailing regions taking into account the activity and competences of the Clubs.
- 2.4 There will be three regattas both in the fall and spring semesters.

2 Calculation

The calculation is carried out by Manage2Sail (Cups), the results of the completed events being already available in Manag2Sail.

The following principles and settings must be applied:

3.1 General

Set the period, the class (Optimist) and the merge method (Sailnumber), see the example hereinafter.

3.2 Ranking

P = Sailors collect points at each event corresponding to their **rank**.

High Point System applies, 1st gets **T** points, 2nd **T-1** points, etc.

T : the number of participants on that event.

(Options: Per Regatta, Take Points from Event Summaries: No)

60% of the events count for each sailor: 1 discard after 3 events, a second discard after 5 events. Set **discards: 3, 5**.

3.3 Regattas

Relevant PM regattas must be selected from the list.

For each regatta (event) apply **Point Factor (PF) = L**

L : the number of valid races (discarded races do not count, Gold in case of several fleet)

3.4 Summary

After **Loading Summary Data**, for each sailor the Regatta Ranks (R) of every event will be merged by "Team Name", that is the name of the sailor in Optimist. In the case a sailor appears several times, merge can be completed by **manual edit**: copy missing results (ranks) and erase second entry. This must be done before **calculate**. Sailnumber can also be corrected manually.

The Regatta Value (RW - Regattawert) is calculated by Manage2Sail

$$RW = P \times PF = P \times L.$$

Calculating Total Points (TR)

TR = RW1 + RW2... calculated by Manage2Sail. Remember there is 1 discard after 3 events, and a 2nd discard after 5 (see Ranking above).

The **highest** TR will be ranked first at the PM/CSP series.

4. Championship by Points of Clubs

4.1 Four boats from each club are ranked based on the sum of their PM points. So if 8 boats from a club are classified in the PM, the best four figure as Club XY 1, the following four as Club XY 2 etc. This must be done separately, based on extraction from Manage2Sail.

4.2 Club membership depends on registration for the selection and otherwise on the first participation in a regatta of the relevant championship.

5 Bestenliste

The best list is calculated like the PM, but from the last six PM regattas. If one or more events are canceled or not held, the Bestenliste will not take events older than 12 months into account.

5 Final Provisions

4.1 These regulations replace all previous PM regulations.

4.2 In the event of any differences between the German, French and English versions, the German text prevails.

4.3 These regulations apply for the first time for the 2024-25 season.

Lugano, 16. March 2024

(Updated 29th March 2024: Merge by "Sail Number" replaced by Merge by "Team Name" this avoids manual edit. No effect on calculation method or results.)
