Modification PM Regulation

PM Regulation 2024 – Current (Manage2Sail)

1. Sailors get points at every event: RW = P x L
   - P: Points corresponding to Ranking at the event
     - 1st in event: T points, 2nd: T-1 points, etc.
     - (M2S Point System : **High Point**)
   - T: Participants (division by fleet not necessary)
   - L: Number of races (without discard) = **Points factor**
2. Ranking : Add best RW1+RW2… - simple sum
   - until reaching about 60% of events:
   - **1 event discarded after 3 events, 2 after 5**

Example: Link to Current Bestenliste
Text: Link to Current Regulation (EN)

Pro:
- Simple to understand, easy to verify
- No manual operation, no errors
- Uses Manage2Sail

Con:
- Number of races have too much weight:
  - The same events discarded for almost everyone (PM with 1 race)
  - Bad Swiss Championship cannot be repaired (high weigth)
- 2 events discarded after 5, no incitation to participate to all events
- Possibility in theory to manipulate results (not happened yet!):
  - by a club registering (weak) participants in mass,
  - or a club not participating in mass to an event.

PM Regulation 2026 – New Proposal

1. Not the events count, but single races (no RW)
2. Total points: simple sum of all races R1+R2+R3…
   - Low-points taken over unchanged
   - 1st in race: 1 point, 2nd: 2 points, etc.
3. Correction for
   - missing race (no participation or letters): max points
   - only one fleet racing: divide points by 2
   - medal race: Silver starts where Gold ends and divide by 2
4. Ranking (Net points): sum of top 80% races (20% discard)

Example: Link to simulation of the new Bestenliste
Text: Link to new Text Proposal (EN)

Pro:
- Simple to understand, very easy to verify
- No weight on participants number, all races have same weight
- Every race can count -> incitation to participate to all PMs
- Only 20% discard -> incitation to participate to all PMs

Con:
- Not possible in Manage2Sail -> Excel recommended
  - But simple enough, to be verified on paper
- Results must be copied from m2s (Copy&Paste whole event)
- Correction not automatic for 1 fleet or medal race
